SUMMARY

Results-oriented Software Engineer with a Bachelor's degree in Computer Science from the University of Cape Coast. A versatile professional specialising in modern web architectures, I possess proven expertise in building full-stack applications utilising Next.js and PostgreSQL. I have demonstrated leadership and strong technical communication skills by training over 100 students in software development at GI-KACE. As a dedicated "builder," I specialise in bridging the gap between robust backend logic and seamless frontend user experiences.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, SQL (PostgreSQL), Python, HTML5, CSS3.
- **Frontend:** Next.js (App Router), React.js, Tailwind CSS, Redux Toolkit.
- **Backend & Cloud:** Supabase (Auth, Storage, Real-time), Node.js, Prisma ORM, REST & GraphQL APIs.
- **Security & Database:** Row-Level Security (RLS), Database Schema Design, JWT Authentication.
- **Infrastructure:** Git/GitHub, Docker, Vercel, Basic Networking (Routing/Switching).

KEY PROJECTS/

PFG Trading — Full-Stack Developer, Freelance

2026 - PRESENT

- **Full-Stack Platform Development:** Designed and built a complete logistics platform for a China-to-Ghana shipping company, covering customer shipment tracking, warehouse operations, and administrative management.
- **Security-Focused Architecture:** Implemented role-based access control across customer, warehouse, and admin roles, enforced at the database level with Supabase Row-Level Security.
- **End-to-End Delivery:** Owned the project solo from schema design through deployment and client handover, using Next.js, Supabase, and Vercel.

EXPERIENCE

Ghana Armed Forces (GAF), Directorate of IT, Accra — *Intern*

SEPTEMBER 2023 - NOVEMBER 2023

- **Disciplined Engineering:** Gained exposure to software development and network infrastructure within a high-security, mission-critical environment.
- **Networking Foundations:** Assisted in maintaining network reliability and troubleshooting connectivity issues for internal military systems.

Invisible Technologies, Remote — *Advanced Data Contractor*

SEPTEMBER 2024 - OCTOBER 2024

- **SKU Enrichment:** Executed high-precision data enrichment and categorisation for large-scale e-commerce datasets.
- **Quality Assurance:** Maintained rigorous data integrity standards for international clients within a fast-paced, AI-driven operations environment.

GI-KACE (Kofi Annan Centre of Excellence), Accra — *Software Development Trainer (NSP)*

OCTOBER 2024 - NOVEMBER 2025

- **Curriculum Leadership:** Directly managed and instructed 4 separate classes in software development fundamentals and advanced web logic.

- Standardised Excellence: Aligned teaching materials with industry standards to ensure students were "job-ready" upon completion of the course

Ghana Digital Acceleration Project (GDAP), Tamale — *Technical Instructor*

OCTOBER 2024 - DECEMBER 2024

- Regional Deployment: Selected as a lead facilitator to travel to the Northern Region to execute a concentrated 2-month intensive bootcamp for the local population.
- Full Stack Mastery: Delivered deep-dive instruction on React, Node.js, and PostgreSQL, taking students from zero to deploying full-stack applications.
- Mentorship: Managed classroom dynamics for diverse learners, ensuring high retention and successful project completion rates.

Coding for Kids, Accra — *Coding Instructor*

AUGUST 2025 - SEPTEMBER 2025

- Digital Literacy: Educated young learners on Office Productivity Suites and foundational coding logic.
- Pedagogical Skill: Developed creative ways to simplify complex programming concepts (loops, variables, logic) for non-technical, younger audiences.

EDUCATION

University of Ghana (Legon) — *Master of Science in Computer Science*

OCTOBER 2025 - PRESENT

Focusing on advanced computing concepts, research methodologies, and emerging technologies.

University of Cape Coast (UCC), Cape Coast — *Bachelor of Science in Computer Science*

JANUARY 2020 - OCTOBER 2024

Core Courses: Data Structures & Algorithms, Database Management Systems (DBMS), Software Engineering, Computer Networking, and Operating Systems.

CERTIFICATIONS

- **Professional Certificate in Cyber Security:** TransforMe STEM Project (Lenovo & ASUSTEM Robotics).
- **Certificate in Software Development (CSD):** Ghana India Kofi Annan Centre of Excellence in ICT (**GI-KACE**).
- **National Service Certificate:** Ghana India Kofi Annan Centre of Excellence in ICT (**GI-KACE**).

AWARDS

Strategic Facilitator: Handpicked for the GDAP Northern Region outreach due to technical proficiency and teaching excellence.

LANGUAGES

- **English: Native.**
- **Ewe & Twi:** Bilingual Proficiency.

SOFT SKILLS

- Technical Pedagogy, Public Speaking, Cross-Cultural Collaboration, Adaptive Problem Solving.

INTERESTS

- AI-Assisted Development (Cursor/Antigravity), Open Source Contribution, Tech Community Building in Ghana.
